

# Emblem Health-Member ID Cards for 2022

## January 31, 2022

Member ID cards have been redesigned for 2022. Plans that need a referral will have a primary care doctor (PCP) shown on the front of the card. Plans without referrals will no longer have a PCP name on the ID cards.

All members of VIP Medicare plans need to select a PCP. Emblem Health will assign a PCP for members who have not selected one. Providers and members can confirm PCP names through the Provider and Member portals, respectively.

Members can select a PCP whether their plan requires it or not, and this ID card design change does not affect the member's PCP selection. There will be no changes made to a member's assigned PCP.

See sample card below:

Sample 2022 Member ID Card:

**1** Your member ID number.
